

AI Image & Video Creation Curriculum

Go from beginner to confident
creator in 4 weeks - CREATE • DESIGN • MOTION

Course Overview

This course introduces students to the fundamentals of AI Image and Video Creation, taking them from the initial idea and creative concept through AI-generated visuals, characters, scenes, motion, voiceovers, and basic video editing. Designed for beginners, the program combines practical learning with hands-on projects, giving

students the skills to create high-quality short-form content, AI cartoons, storytelling videos, TikToks, Reels, YouTube Shorts, and 3-5 minute videos using AI tools and CapCut. By the end of the course, students will understand the complete AI video creation workflow – from idea script, visuals, motion, voice, sound, editing, final video – and will have created their own complete AI video project.

Learning Model

Mode

Online Live Classes
Interactive sessions with
practical demonstrations
and guided exercises.

Duration

4 Weeks focused,
hands-on program designed
to take you from beginner to
confident AI content creator.

Level

Beginner to Intermediate
No prior AI video experience
required. Learn the tools
and workflow needed to
create high-quality AI images,
videos, cartoons and short-form content.

Learning Approach

Learn • Practice • Create
Every stage combines practical lessons,
demonstrations and hands-on projects
so you don't just learn, you create.

What You'll Learn

By the end of this class, you'll be able to:

Create with AI

Turn simple ideas into compelling AI-generated images and visuals.

Write Better Prompts

Understand how to structure prompts for more accurate and consistent results.

Create with AI

Turn simple ideas into compelling AI-generated images and visuals.

Bring Ideas to Life

Combine AI tools and creative techniques to produce content for brands, social media, and storytelling.

Where These Skills Can Take You

Turn your creativity into real opportunities
Then 4-6 career/earning paths:

Week 1

AI Image Creation & Prompting

- Learn to create characters,
- Scenes,
- Portraits,
- Environments, and
- Creative visuals with AI.

Week 2

AI Video Creation

Learn to turn ideas and images into
AI-generated video clips, with basic
control over movement, shots, and scenes.

Week 3

Capcut Video Editing

Learn the essential CapCut skills: cutting, arranging clips, transitions, text, captions, music, sound effects, overlays, effects, and exporting.

Week 4

AI Storytelling & Social Content

Learn to develop simple stories, scripts, scenes, hooks, captions, hashtags, and social-ready content – then combine everything into a finished project..

Why Choose Us?

HeriBhee Academy

Beginner-Friendly

No prior AI or video-editing experience required.

Hands-On Learning

Learn by creating real images, videos, and projects.

Practical AI Skills

Focus on tools and techniques you can actually use. Learn at Your Pace Follow the lessons, practice, and build your skills step by step.

Creative Projects

Turn your ideas into finished visual content.
